- (1) During the 2017 through 2019 calendar years, City staff discovered roads that were incorrectly reported to the State of Wisconsin for funding purposes in their length or existence, and this section is created to correct those errors. Due to some roads being one-way and only 33' in width right of way, each of these road lengths are as if the width were 66 feet right of way. The roads that are to be correctly reported to the Buffalo County Register of Deeds, and the State of Wisconsin for future funding of transportation dollars are as follows:
 - a. **West Parkview Avenue.** Formerly known as Parkview Avenue with a total distance of approximately 1,405 linear feet or 0.27 of a mile. This street begins at the intersection with S. Eau Claire Street to its termini within the City's Recycle Center/Landfill.
 - b. **Short Street.** Partially developed road and existing remaining right-of-way with a total distance of approximately 260 feet or 0.01 of a mile. This street right-of-way begins at the intersection with Buffalo Street and ends at the intersection with Highland Avenue.
- (2) In early 2019 the Common Council commissioned a survey for new roads within the City's Tourist Park, of which two are developed and two others are to be developed. These roads are to be dedicated, added to the City's OFFICIAL MAP as indicated in Section 8.01 and reported to the State of Wisconsin for future funding of transportation dollars. These roads are as follows:

- a. East Parkview Avenue. A total distance of approximately 1,045 feet or 0.20 of a mile; of which 220 feet or 0.04 of a mile is 66 feet wide and is two-way traffic, and 825 feet or 0.16 of a mile is 33 feet wide one-way traffic. The entrance portion of this road is a two-way road that begins at its intersection with South Eau Claire Street, and the two-way ends just west of the Tourist Park Cabin. The road then continues east as a one-way road and forms a loop through the Tourist Park to the east, curves back towards the west, and continues west as a one-way street until it connects back with the entrance portion of the street just west of the Tourist Park Cabin.
- b. Cabin Loop. A total distance of approximately 200 feet or 0.04 of a mile and is 33 feet wide and one-way traffic only. This road begins southeast of the Tourist Park Cabin at intersection with E. Parkview Ave. one-way eastbound traffic and reconnects at the intersection with E. Parkview Ave. one-way westbound traffic northwest of the Tourist Park Cabin.
- c. Forest Loop. A total distance of approximately 580 feet or 0.11 of a mile. This road right-of-way begins at the intersection with E. Parkview Ave. eastbound traffic near the southeast corner of the Tourist Park and runs from northwest to southeasterly directions. After approximately 170 feet it splits into a loop for one-way traffic in a southerly direction and reconnects to itself for northbound traffic. This road will be developed at a date yet to be determined.
- d. Olson Place. A total distance of approximately 370 feet or 0.07 of a mile. This road right-of-way begins at the intersection with eastbound E. Parkview Ave. just south of the Tourist Park Cabin and is a two-way road north and southbound traffic that ends at the southern property line of the City owned Olson property (parcel number 026-00268-0000). This road will be developed at a date yet to be determined.
- (3) In 2020 the City shall begin construction of its new Waste Water Treatment Plant (WWTP), which necessitates a new access road. Further, the development of an Industrial Park adjacent to the WWTP requires this road to continue and connect with Buffalo County Road A. This road is new in two different sections, to be dedicated, are to be added to the City's OFFICIAL MAP as indicated in Section 8.01, and reported to the State of Wisconsin for future funding of transportation dollars. These roads are sixty-six feet in width as follows:
- a. Schmidtknecht Road. A total distance of approximately 3,850 feet or 0.73 of miles. This road begins at the intersection with Wisconsin State Highway 37 at a 90° angle, approximately directly south of where Garfield Street current terminates, and continues in a northwesterly direction. It then turns west bound at the northern property line of the Joshua and Samantha Odegard property; 564 W. Riverside Avenue. This road continues west until it reaches the designated floodplain boundary of Harvey Creek, and then heads northwest until it reaches the western property line of the Schmidtknechts' Farms, LLP parcel number 251-00562-0010, where it heads northbound until it connects with Buffalo County Road A. Southbound traffic on Schmidtknecht Road will have no left turn signs at both of Garfield Street's (see section (b) below) intersection points.
- b. Garfield Street. A total distance of approximately 623 feet or 0.12 of mile, of which 353 is existing and 270 feet is added from the acquisition of the Odegard property to complete the connection to State Highway 37/W. Riverside Avenue. At Garfield Street's current termini point, it becomes a divided street with one-way one lane of traffic in the north and south bound lanes. The northbound lanes will have "No Truck Traffic" signs at its intersection with Schmidtknecht Road. The southbound lane will have a stop sign at its intersection with Schmidtknecht Road and shall intersect at a 90° angle.

SECTION 9.03A NUDE DANCING IN LICENSED ESTABLISHMENTS.

- (1) **Authority and Purpose:** The City Council of the City of Mondovi has explicit authority under s. 125.10 (1), Wis. Stats., to adopt regulations governing the sale of alcoholic beverages which are in addition to those set forth in Ch. 125, Wis. Stats., and has authority under its general police powers set forth in s. 62.11 (5), Wis. Stats., to act for the good order of the municipality and for the health, safety, and welfare of the public and may carry out its powers by regulation and suppression. The City Council recognizes its lack of authority to regulate obscenity in light of s. 66.051 (3), Wis. Stats., and does not intend by adopting this ordinance to regulate obscenity, since nudity in and of itself is not obscene, and declares its intent to enact an ordinance addressing the secondary effects of live,

totally nude, non-obscene, erotic dancing in bars and taverns.

The City Council finds that bars and taverns featuring live, totally nude, non-obscene, erotic dancing have in other communities tended to further the increase of criminal and other offensive activity, to disrupt the peace and order of the communities, to depreciate the value of real property, to harm the economic welfare of the communities, and to negatively affect the quality of life of the communities, and such secondary effects are detrimental to the public health, safety, and general welfare of citizens. The City Council recognizes that the U.S. Supreme Court has held that nude dancing is expressive conduct within the outer perimeters of the first amendment of the United States constitution and therefore entitled to some limited protection under the first amendment, and the city council further recognizes that freedom of speech is among our most precious and highly protected rights, and wishes to act consistently with full protection of these rights.

The City Council is aware, based on the experiences of other communities, that bars and taverns in which live, totally nude, non-obscene, erotic dancing occurs do generate secondary effects which the City Council believes are detrimental to the public health, safety, and welfare of the citizens of the City of Mondovi, namely the potential increase in prostitution and other sex-related offenses, as well as other crimes and offenses; the potential depreciation of property values in neighborhoods where bars and taverns featuring nude dancing exist; health risks associated with the spread of sexually transmitted diseases; and the potential for infiltration by organized crime for the purpose of unlawful conduct. The City Council thus desires to minimize, prevent and control these adverse effects and thereby protect the health, safety, and general welfare of the citizens of the City of Mondovi; protect the citizens from increased crime; preserve the quality of life; preserve the property values and character of surrounding neighborhoods; and deter the spread of urban blight. Therefore, the City Council has determined that enactment of this chapter prohibiting live, totally nude, non-obscene, erotic dancing in bars and taverns licensed to serve alcoholic beverages promotes the goal of minimizing, preventing and controlling the negative, secondary effects associated with such activity.

- (2) **Definitions:** For purposes of this ordinance, the term "licensed establishment" means any establishment licensed by the City Council of the City of Mondovi to sell alcoholic beverages pursuant to Ch. 125, Wis. Stats. The term "licensee" means the holder of a retail "Class

A”, “Class B”, or “Class C” license granted by the City Council of the City of Mondovi pursuant to Ch. 125, Wis. Stats.

- (3) Nude Dancing in Licensed Establishments Prohibited: It is unlawful for any person to perform or engage in, or for any licensee, manager or agent of the licensee to permit any person, employee, entertainer or patron to perform or engage in any live act, demonstration, dance or exhibition the premises of a licensed establishment which:

- (4) Exemptions: The provisions of this ordinance do not apply to the following licensed establishments: theaters, performing arts centers, civic centers, and dinner theaters where live dance, ballet, music and dramatic performances of serious artistic merit are offered on a regular basis and in which the predominant business or attraction is not the offering to customers of entertainment which is intended to provide sexual stimulation or sexual gratification to such customers and where the establishment is not distinguished by an emphasis on, or the advertising or promotion of, employees engaging in nude erotic dancing.
- (5) Penalties: Any person, partnership, or corporation who violates any of the provisions in this ordinance shall be subject to a forfeiture of not less than \$25.00 and not more than \$1,000.00 per violation. A separate offense and violation shall be deemed committed on each day on which a violation occurs or continues. IN addition, violation of this ordinance constitutes sufficient grounds for suspending, revoking or non-renewing an alcohol beverage license under s. 125.12, Wis. Stats.

SECTION 9.04 OFFENSES AGAINST PUBLIC AND PRIVATE PROPERTY.

- (1) Destruction of Property Prohibited: No person shall willfully injure or intentionally deface, destroy, or unlawfully remove, take or meddle with any property of any kind or nature belonging to the City or its departments or to any private person without the consent of the owner of property authority.
- (2) Littering Prohibited: No person shall throw any glass, rubbish, waste or filth upon the streets, alleys, highways, public parks, or other property of the City or upon any private property not owned by him or upon

SECTION 9.05 ISSUANCE OF WORTHLESS CHECKS.

- (1) In Regards to the Wisconsin Statutes
- The statutory provisions of s. 943.24 of the Wisconsin Statutes, describing and defining regulations with respect to prohibition of issuance of worthless checks, exclusive of any regulations for which the statutory penalty is a fine or a term of imprisonment are hereby adopted and by reference made a part of this code as if fully set forth herein. Any act required to be performed or prohibited by any regulation incorporated herein by reference is required or prohibited by this code. Any future amendments, revisions, or modifications of the statutory regulation in s. 943.24 incorporated herein are made part of this code.
 - Whenever this section incorporates by reference specific sections of the Wis. Stats., such references shall mean the Wis. Stats., of 1991 as from time to time amended, repealed or modified by the Wisconsin Legislature.
- (2) Whoever issues any single check or other order for the payment of money which, at the time of issuance, he or she intends shall not be paid, is guilty of a violation of this ordinance.

CHAPTER 9C. SEXUAL OFFENDER RESIDENCY RESTRICTIONS

(Amended 03/2012, 01/2016)

SECTION 9C.01 TITLE.

This chapter shall be known, cited, and referred to as the "Sexual Offender Restrictions Ordinance".

SECTION 9C.02 FINDINGS AND INTENT.

- (1) Repeat sexual offenders, sexual offenders who use physical violence and sexual offenders who prey on children are sexual predators who present an extreme threat to the public safety. Sexual offenders are extremely likely to use physical violence to repeat their offenses; and most sexual offenders commit many offenses, have many more victims than are ever reported, and are prosecuted for only a fraction of their crimes. This makes the cost of sexual offender victimization to society at large, while incalculable, clearly exorbitant.
- (2) It is the intent of this ordinance not to impose a criminal penalty but rather to serve the City's compelling interest to promote, protect, and improve the health, safety, and welfare of the citizens of the City by designating locations where children regularly congregate wherein certain sexual offenders and sexual predators are prohibited from entering as well as zones around such locations in which such persons are restricted from establishing temporary or permanent residences.

SECTION 9C.03 DEFINITIONS.

The following words, terms, and phrases, when used in this ordinance, shall have the meanings ascribed to them in this section, except when the context clearly indicates a different meaning.

- (1) Child: A person under the age of 16 for purposes of this ordinance.
- (2) Designated Offender: Any person who is required to register under ss. 301.45, Wis. Stats., for any sexual offense against a child or any person who is required to register under ss. 301.45, Wis. Stats., and who has been designated a Special Bulletin Notification (SBN) sex offender pursuant to ss. 301.46 (2) and (2m), Wis. Stats.
- (3) Minor: A person under the age of 17.
- (4) Permanent Residence: A place where the person abides, lodges, or resides for 14 or more consecutive days.
- (5) Temporary Residence: A place where the person abides, lodges, or resides, for a period of 14 or more days in the aggregate during any calendar year and which is not the persons permanent address or a place where the person routinely abides, lodges, or resides

for a period of four or more consecutive or non-consecutive days in any month and which is not the person's permanent residence.

SECTION 9C.04 SEXUAL OFFENDER AND SEXUAL PREDATOR RESIDENCE PROHIBITION; PENALTIES; EXCEPTIONS.

- (1) Prohibited Locations of Residence: It is unlawful for any designated offender to establish a permanent residence or temporary residence within 500 feet of any school, licensed day care center, park, trail, playground, place of worship or any other place designated by the City as a place where children are known to congregate.
- (2) Prohibited Activity: It is unlawful for any designated offender to participate in a holiday event involving children under 18 years of age, such as distributing candy or other items to children on Halloween, wearing a Santa Clause costume or wearing an Easter Bunny costume. Holiday or costumed events in which the offender is the parent or guardian of the children involved and no non-familial children are present, are exempt from this paragraph.
- (3) Measurement of Distance:
 - a. For purposes of determining the minimum distance separation, the requirement shall be measured by following a straight line from the outer property line of the permanent residence or temporary residence to the nearest outer property line of a school, licensed day care center, park, trail, playground, place of worship, or any other place designated by the City where children are known to congregate.
 - b. The City Clerk shall maintain an official map showing prohibited locations as defined by this ordinance. The Clerk shall update the map at least annually to reflect any changes in the locations of prohibited zones. These shall be designated on the map as child safety zones.
- (4) Penalties: A person who violates this section shall be punished by a forfeiture not exceeding \$500.00. Each day a given offense continues constitutes a separate violation. The City may also seek equitable relief.
- (5) Exceptions: A designated offender residing within a prohibited area as described in Section (2) (a) does not commit a violation of this section if any of the following apply:
 - a. He or she established the permanent residence or temporary residence and reported and registered the residence pursuant to section 301.45, Wis. Stats., before the effective date of this ordinance. Any offender renting, leasing, or otherwise occupying a

permanent or temporary residence under this subsection shall vacate the premises located within a child safety zone at the expiration date of the current term of the lease and where there is no lease, within 60 days of the enactment of this ordinance.

- b. He or she is a minor and is not required to register under section 301.45 and section 301.46, Wis. Stats.
- c. The school, licensed day care center, park, trail, playground, place of worship or any other place designated by the City as a place where children are known to frequent or congregate within 500 feet of the designated offender's permanent residence was opened after he or she established the permanent residence or temporary residence and reported and registered the residence pursuant to section 301.45, Wis. Stats.
- d. The residence is also the primary residence of the designated offender's parents, grandparents, siblings, spouse or children provided that such parent, grandparent, sibling, spouse or child established the residence at least two years before the designated offender established residence at the location.
- e. Notwithstanding these exceptions, designated offenders shall obey the requirements of G., below, which prohibit them from loitering in a zone of 66 feet from the exterior boundary of one or more of the identified places where children are known to frequent or congregate.

SECTION 9C.05 PROPERTY OWNERS PROHIBITED FROM RENTING REAL PROPERTY TO CERTAIN SEXUAL OFFENDERS AND SEXUAL PREDATORS; PENALTIES.

- (1) It is unlawful to let or rent any place, structure, or part thereof, trailer or other conveyance, with the knowledge that it will be used as a permanent residence or temporary residence by any person prohibited from establishing such permanent residence or temporary residence pursuant to this ordinance, if such place, structure, or part thereof, trailer or other conveyance, is located within a prohibited location zone described in section (3) (a).
- (2) A property owner's failure to comply with provisions of this section shall constitute a violation of this section and shall subject the property owner to the code enforcement provisions and procedures as provided in this ordinance.

- (2) Failure to comply with the provisions of this chapter shall constitute a violation of this section and shall subject the person violating this section to the penalties and other relief as provided in this ordinance.

Designated offenders subject to this ordinance shall be prohibited from having access to all City parks, trails or pathways, playgrounds, licensed day care centers, athletic fields, schools and school grounds and places of worship in the City which are recognized as places where children congregate or frequent. This restriction shall apply not only to the properties specified but shall include all sidewalks abutting or adjacent to the same.

No designated offender shall loiter within 66 feet of the boundary of any of the places identified in section (3) (a) above. For purposes of this paragraph, "loiter" shall be defined as meaning to linger in an apparently meaningless manner, idling, walking or moving slowly and indolently with frequent stops or pauses or not moving at all.

SECTION 9C.08 APPEAL.

The above requirement may be waived with the approval of the City Council upon appeal by the affected party. Such appeal shall be made to the City Clerk, who shall forward the request to the City Council, which shall receive report from the Police Department on such appeal. After deliberation, the City Council shall issue its decision.

SECTION 9C.09 SEVERABILITY.

The provisions of this ordinance shall be deemed severable and it is expressly declared that the City Council would have passed the other provisions of this ordinance irrespective of whether or not one or more provisions may be declared invalid. If any provisions of this ordinance or the application to any person or circumstance is held invalid, the remainder of the ordinance or the application of such other provisions to other persons or circumstance shall not be affected.

- 62.234, Wis. Stats., s. 62.23, Wis. Stats., applies to this ordinance and to any amendments to this ordinance.
- (2) The provisions of this ordinance are deemed not to limit any other lawful regulatory powers of the same governing body.
- (3) The Common Council for the City of Mondovi (City) hereby designates the City Administrator to administer and enforce the provisions of this ordinance.
- (4) The requirements of this ordinance do not pre-empt more stringent erosion and sediment control requirements that may be imposed by any of the following:

 - b. Targeted non-agricultural performance standards promulgated in rules by the Wisconsin Department of Natural Resources under s. NR 151.004, Wis. Adm. Code.

16.04.02 FINDINGS OF FACT.

The Common Council acknowledges that runoff from land disturbing construction activity carries a significant amount of sediment and other pollutants to the waters of the state in the City of Mondovi.

16.04.03 PURPOSE.

It is the purpose of this ordinance to maintain safe and healthful conditions; prevent and control water pollution; prevent and control soil erosion and sediment discharge; protect spawning grounds, fish and aquatic life; control building sites, placement of structures and land uses; preserve ground cover and scenic beauty; and promote sound economic growth by minimizing the amount of sediment and other pollutants carried by runoff or discharged from land disturbing construction activity to waters of the state in the City.

SECTION 18.02 FLOODPLAIN ORDINANCE

- (1) Statutory Authorization, Finding of Fact, Statement of Purpose, Title and General Provisions.
- (2) Statutory Authorization. This ordinance is adopted pursuant to the authorization in Section 62.23, Wis. Stats., and the requirement in s. 87.30, Wis. Stats.
- (3) Finding of Fact. Uncontrolled development and use of the floodplains and rivers of this municipality would impair the public health, safety, convenience, general welfare, and tax base.
- (4) Statement of Purpose. This ordinance is intended to regulate floodplain development to:
- Protect life, health, and property.
 - Minimize expenditures of public funds for flood control projects;
 - Minimize rescue and relief efforts undertaken at the expense of the taxpayers;
 - Minimize business interruptions and other economic disruptions;
 - Minimize damage to public facilities in the floodplain;
 - Minimize the occurrence of future flood blight areas in the floodplain;
 - Discourage the victimization of unwary land and homebuyers;
 - Prevent increases in flood heights that could increase flood damage and result in conflict between property owners; and
 - Discourage development in a floodplain if there is any practicable alternative to locate the activity, use or structure outside of the floodplains.
- (5) Title. This ordinance shall be known as the Floodplain Zoning Ordinance for the City of Mondovi, Wisconsin.
- (6) General Provisions.
- Areas to be Regulated. This ordinance regulates all areas that would be covered by the regional flood or base flood.

Note: Base flood elevations are derived from the flood profiles in the Flood Insurance Study. Regional food elevations may be derived from other studies. Areas covered by the base flood are identified as Zone A on the Flood Insurance Rate Map.
 - Official Maps and Revisions. The boundaries of all floodplain districts are designated as floodways or Zones A, A4, A5, and B on the maps listed below for the City of Mondovi Flood Boundary and Floodway Map (FBFM). Any change to the base flood elevations (BFE) in the Flood Insurance Study (FIS) must be reviewed and approved by the DNR and FEMA before

it becomes effective. No changes to regional flood elevations (RFE's) on non-FEMA maps shall be effective until approved by the DNR. These maps and revisions are on file in the office of the City Administrator, at City Hall, in the City of Mondovi, Buffalo County, Wisconsin. If more than one map or revision is referenced, the most current approved information shall apply.

- Official maps: Based on the FIS. Floodway flood boundary and floodway map, City of Mondovi, Buffalo County, Wisconsin, with an effective date of June 1, 1981, prepared by FEMA and the Federal Insurance Administration based on the Flood Insurance Study dated December 1, 1980.

Approved by: the DNR and FEMA. These maps consist of the 100-year flood boundary and the 500-year flood boundary for Peeso Creek and the Buffalo River contained within the corporate boundaries for the City of Mondovi, Buffalo County, Wisconsin.
- Establishment of District's. The regional floodplain areas are divided into three districts as follows:
 - The Floodway District (FW) is the channel of a river or stream and those portions of the floodplain adjoining the channel required to carry the regional floodwaters.
 - The Flood fringe District (FF) is that portion of the floodplain between the regional flood limits and the floodway.
 - The General Floodplain District (GFP) is those areas that have been or may be covered by floodwater during the regional flood.
- Locating Floodplain Boundaries. Discrepancies between boundaries on the official floodplain zoning map and actual field conditions shall be resolved using the criteria in paragraphs (a) or (b) below. If a significant difference exists, the map shall be amended according to s. 8.0. The zoning administrator can rely on a boundary derived from a profile elevation to grant or deny a land use permit, whether or not a map amendment is required. The zoning administrator shall be responsible for documenting actual pre-development field conditions and the basis upon which the district boundary was determined and for initiating any map amendment required under this section. Disputes between the zoning administrator and an applicant over the district boundary line shall be settled according to s. 7.3 (3) and the criteria in (i) and (ii) below.
 - If flood profiles exist, the map scale and profile elevations shall determine the district boundary.

The regional or base flood elevations shall govern if there are any discrepancies.

- ii. Where flood profiles do not exist, the location the boundary shall be determined by the map scale, visual on-site inspection and any information provided by the department.
- iii. Where the flood profiles are based on established base flood elevations from a FIRM, FEMA must also approve any map amendment pursuant to s. 8.1 (6).
- e. Removal of Lands from Floodplain. Compliance with the provisions of this ordinance shall not be grounds for removing lands from the floodplain unless it is filled at least two feet above the regional or base flood elevation, the fill is contiguous to land outside the floodplain, and the map is amended pursuant to s. 8.0.

This procedure does not remove the requirements for the mandatory purchase of flood insurance. The property owner must contact FEMA to request a Letter of Map Change (LOMC).

- f. Compliance. Any development or use within the areas regulated by this ordinance shall be in compliance with the terms of this ordinance, and other applicable local, state, and federal regulations.
- g. Municipalities and State Agencies Regulated. Unless specifically exempted by law, all cities, villages, towns, and counties are required to comply with this ordinance and obtain all necessary permits. State agencies are required to comply if s. 13.48 (13) Wis. Stats. applies. The construction, reconstruction, maintenance and repair of state highways and bridges by the Wisconsin Department of Transportation is exempt when s. 30.12 (4) (a), Stats. applies.
- h. Abrogation and Greater Restrictions.
 - i. This ordinance supersedes all the provisions of any municipal zoning ordinance enacted under ss. 59.69, 59.692, or 59.694 for counties; s. 62.23 for cities; or s. 61.35 for villages; or s. 87.30, Stats. which relate to floodplains. If another ordinance is more restrictive than this ordinance, that ordinance shall continue in full force and effect to the extent of the greater restrictions, but not otherwise.
 - ii. This ordinance is not intended to repeal, abrogate, or impair any existing deed restriction, covenants, or easements. If this ordinance imposes greater restrictions, the provisions of this ordinance shall prevail.
- i. Interpretation. In their interpretation and application, the provisions of this ordinance are the minimum requirements liberally construed in favor

of the governing body and are not a limitation on or repeal of any other powers granted by the Wisconsin Statutes. If a provision of this ordinance, required by Ch. NR 116, Wis. Adm. Code, is unclear, the provisions shall be interpreted in light of the standards in effect on the date of the adoption of this ordinance or in effect on the date of the most recent text amendment to this ordinance.

- j. Warning and Disclaimer of Liability. The flood protection standards in this ordinance are based on engineering experience and scientific research. Larger floods may occur of the flood height may be increased by man-made or natural causes. This ordinance does not imply or guarantee that non-floodplain areas or permitted floodplain uses will be free from flooding and flood damages. Nor does this ordinance create liability on the part of, or a cause of action against, the municipality or any officer or employee thereof for any flood damage that may result from reliance on this ordinance.
- k. Severability. Should any portion of this ordinance be declared unconstitutional or invalid by any court of competent jurisdiction, the remainder of this ordinance shall not be affected.
- l. Annexed Areas for Cities and Villages. The Buffalo County floodplain zoning provisions in effect on the date of annexation shall remain in effect and shall be enforce by the municipality for all annexed areas until the municipality adopts and enforces an ordinance which meets the requirements of Ch. NR 116, Wis. Adm. Code and the National Flood Insurance Program (NFIP). These annexed lands are described on the municipality's official zoning map. County floodplain zoning provisions are incorporated by reference for the purpose of administering this section and are on file in the office of the municipal zoning administrator. All plats or maps of annexation shall show the regional food elevation and the location of the floodway.
- m. General Development Standards. The community shall review all permit applications to determine whether proposed building sites will be reasonably safe from flooding. If a proposed building site is in a flood-prone area, all new construction and substantial improvements shall be designed or modified and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads; be constructed with materials resistant to flood damage; be constructed by methods and practices that minimize flood damages; and be constructed with electrical, heating, ventilation, plumbing, and air conditioning in

equipment and other service facilities designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding. Subdivisions shall be reviewed for compliance with the above standards. All subdivision proposals, including manufacture home parks, shall include regional flood elevation and floodway data for any development which meets the subdivision definition of this ordinance.

(7) General Standards Applicable to All Floodplain Districts.

(8) Hydraulic and Hydrologic Analysis.

- a. Except as allowed in par. (c) below, no floodplain development shall:
 - i. Obstruct flow, defined as development which blocks the conveyance of floodwaters by itself or with other development increasing regional flood height; or
 - ii. Increase regional flood height due to floodplain storage area lost, which equals or exceeds 0.01 foot.
- b. The zoning administrator shall deny permits if it is determined the proposed development will obstruct flow or increase regional flood heights 0.01 foot or more, based on the officially adopted FIRM or other adopted map, unless the provisions of sub. (c) are met.
- c. Obstructions or increases equal to or greater than 0.01 feet may only be permitted if amendments are made to this ordinance, the official floodplain zoning maps, floodway lines and water surface profiles, in accordance with s. 8.0

This section refers to obstructions or increases in base flood elevations as shown on the officially adopted FIRM or another adopted map. Any such alterations must be reviewed and approved by FEMA and the DNR.

- (9) Watercourse Alterations. No land use permit to alter or relocate a watercourse in a mapped floodplain shall be issued until the local official has notified in writing all adjacent municipalities, the Department and FEMA regional offices and required the applicant to secure all necessary state and federal permits. The flood carrying capacity of any altered or relocated watercourse shall be maintained.

As soon as is practicable, but not later than six months after the date of the watercourse alteration nor relocation, the zoning administrator shall notify FEMA of the changes by submitting appropriate technical or scientific data in accordance with NFIP guidelines that shall be used to revise the FIRM, risk premium rates and floodplain management regulations are required.

Stats. such as docks, piers, wharves, bridges, culverts, dams and navigational aids, may be allowed if the necessary permits are obtained and amendments to the floodway lines, water surface profiles, BFE's established in the FIS, or other data from the officially adopted FIRM, or other floodplain zoning maps or the floodplain zoning ordinance are made according to s. 8.0.

- ccc. REGIONAL FLOOD: A flood determined to be representative of large floods known to have occurred in Wisconsin. A regional flood is a flood with a one percent (1%) chance of being equaled or exceeded in any given year, and if depicted on the FIRM, the RFE is equivalent to the BFE.
- ddd. START OF CONSTRUCTION: The date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond initial excavation, or

the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling, nor does it include the installation of streets and/or walkways, nor does it include excavation for a basement, footings, piers or foundations or the erection of temporary forms, nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

- b. **Findings of Fact**: Uncontrolled use of the shoreland-wetlands and the pollution of the navigable waters of the City of Mondovi would adversely affect the public health, safety, convenience, and general welfare and impair the tax base. The Legislature of Wisconsin has delegated responsibility to al municipalities to further the maintenance of safe and healthful conditions; prevent and control water pollution; protect spawning grounds, fish and aquatic life; control building sites, placement of structures and land uses; and preserve shore cover and natural beauty.
- c. **Statement of Purpose**:
- i. To promote the public health, safety, convenience and general welfare, this Ordinance has been established to:
 - ii. Further the maintenance of safe and healthful conditions;
 - iii. Prevent and control water pollution by filtering or storage of sediments, nutrients, heavy metals or organic compounds that would otherwise drain into navigable waters and to maintain storm and flood water capacity;
 - iv. Protect fish spawning grounds, fish, aquatic life and wildlife by preserving wetlands and other fish and aquatic habitat;
 - v. Prohibit certain uses detrimental to the shoreland-wetland area; and
 - vi. Preserve shore cover and natural beauty by restricting the removal of natural shoreland cover and controlling shoreland-wetland excavation, filling and other earth moving activities.
- d. **Title**: Shoreland-Wetland Zoning Ordinance for the City of Mondovi, Wisconsin.

(2) General Provisions.

- a. **Compliance**: The use of wetlands, and the alteration of wetlands within the shoreland area of the City of Mondovi shall be in full compliance with the terms of the Ordinance and other applicable local, state or Federal regulations. (However, see section 4 of this

 - c. Abrogation and Greater Restrictions: This Ordinance supersedes all the provisions of any municipal zoning Ordinance enacted under section 62.23 or 87.30, Wis. Stats., which relate to shoreland-wetlands, except that where another municipal zoning Ordinance is more restrictive than the provisions contained in this Ordinance, that Ordinance shall continue in full force and effect to the extent of the greater restrictions, but not otherwise.
 - d. Interpretation: In their interpretation and application, the provisions of this Ordinance shall be held to be minimum requirements and shall be liberally construed in favor of the municipality and shall not be granted by the Wis. Stats. Where a provision of this ordinance is required by a standard in Ch. NR 117, Wis. Adm. Code, and where the ordinance provision is unclear, the provision shall be interpreted in light of the Ch. NR 117 standards in effect on the date of the adoption of this ordinance or in effect on the date of the most recent text amendment to this ordinance.

- (3) Shore Land – Wetland Zoning District.
- a. Purpose. This ordinance is adopted to maintain safe and healthful conditions, to prevent and control water pollution, to protect fish spawning grounds, fish and aquatic life and wildlife habitat, to preserve shore cover and natural beauty and to control building and development in wetlands whenever possible. When development is permitted in a wetland, the development should occur in a manner which minimizes adverse impacts upon the wetland.

this ordinance and are on file in the office of the Clerk for the City of Mondovi, Wisconsin:

 2. When an apparent discrepancy exists between the shore land-wetland district boundary shown on the official shore land-wetland zoning maps and the actual field conditions at the time the maps were adopted, the zoning administrator shall contact the appropriate district office of the Department to determine if the shore land-

wetland district boundary as mapped, is in error. If the Department staff concur with the zoning administrator that a particular area was incorrectly mapped as a wetland, the zoning administrator shall have the authority to immediately grant to deny land use or building permit in accordance with the regulations applicable to the correct zoning district. - a. The purpose of this article is to establish the basis for reasonable charges for the cost of collecting and treating domestic and industrial wastewaters.
 - b. Two classes of wastewater charges shall be established as follows:
 - i. Domestic wastewater;
 - ii. Industrial wastewater.
 - c. Domestic wastewater shall include wastewater from commercial, institutional, public and residential sources. Such charges shall be assessed quarterly by the Agency. Such charges shall be reviewed to determine their adequacy to offset operations, maintenance and capital costs annually. Accordingly, the Agency reserves the authority to adjust such charges annually to assure their continued adequacy.
 - i. Domestic Wastewater Charges: The charges for domestic wastewater will be based on metered water volume and shall consist of a debt services charge, operation and maintenance charge, sewer and service charge, replacement charge, and a minimum charge (combined debt service charge and operation and maintenance charge). The amount of such charges shall be set from time to time by the Agency in accordance with applicable law.

Initial charges shall be developed on the basis of this statement.
 - g. Changes in operations or use shall be reported by the owner and it shall be his sole responsibility to have such changes made to the original statement to remain in compliance with this ordinance.

- (3) Service Charge Determination.
- a. The intent of this sub-section is to establish the method for recovering operation and maintenance costs invested by the Agency on behalf of the industrial user.
 - b. The agency shall maintain annual operation and maintenance costs allocated for volume, BOD, and suspended solids. The Agency shall adjust the charge for operation and maintenance annually to reflect cost increases and decreases. Operational and maintenance costs for the public sewer collection shall be allocated to such industry on volume only and shall only apply to that portion of the public sewer collection system used by that industry.
 - c. Industrial users, whose wastewater discharge is at a strength greater than domestic wastewater, shall pay an additional charge for operation and maintenance. The amount of surcharge for BODE and suspended solids hall be determined based on the following formula:
 - Cm = amount of surcharge, always greater than zero
 - B = BOD5 discharge - mg/1
 - Bc = Discharged - 250mg/1 operating cost attributable to suspended solids
 - Vu = Wastewater Volume for the billing period
 - Cm = Bc (B) + Sc (S) Vu

- d. Cm shall be the total annual marge made to the industry. The Agency shall invoice the industry a minimum of once per year. Shorter invoicing periods may be established.
- e. The total annual operation and maintenance costs shall include a depreciation allowance and may be increased by an amount up to 10% of the total as an estimated factor to tallow for increased costs during the year of the changes.
- f. If there is any change in the volume, 8005, or suspended solids characteristics by the industry, the industry's share of operation and maintenance cost shall be adjusted accordingly.
- (4) Service Contracts. Where individual industrial wastewaters constitute a substantial portion of either the volumetric or organic capacity of the sewage treatment facilities, a service agreement between the industry and the Agency may be executed. Such service agreements shall be required where the industrial wastewaters emanating from an industry contains either 30% or more of the design BOD5, 30% or more of the design volume or 30% or more of the design suspended solids to the sewage treatment plant. Such agreement shall assure continued participation in capital costs by the industry over the life of the agreement. Should the industry eliminate their discharge, the Agency, at its option, may elect to assign to another user that portion of design capacity and associated capital costs thereby relieving the industry of continued financial participation.
- (5) Use of the Sanitary Sewers.
- a. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof runoff, subsurface drainage, or any other unaltered water to any sanitary sewer.
- b. The Agency reserves the right to refuse or accept any or all industrial wastewaters from an industry or combination of industries as may be necessary to insure adequate treatment and proper operation of the public sewer collection system.

No person shall discharge or cause to be discharged the following specifically described substances, materials, fluids, or solids which may harm sanitary sewers, sewage treatment processes and equipment, have an adverse effect on the receiving stream, or may constitute a nuisance without the specific written permission of the Superintendent. Such permission is subject to termination at any time upon written notice. In forming his opinions to the acceptability of these wastes, the Superintended will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sanitary sewers, materials of construction of the sanitary sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, and other pertinent factors. The substances prohibited are:

 - i. Reject the wastes.
 - ii. Require pretreatment o an acceptable condition prior the discharge to the sanitary sewers.
 - iii. Require flow equalization of the rate of discharge, and/or
 - iv. Require payment to cover the added cost of handling and treating the wastes not covered by the sewer charges. If the Superintendent permits the pretreatment or equalization of waste flows, plans and specifications for such facilities shall be submitted by the owner to the DNR for review and approval.
- f.  - ii. No such petition may be approved unless the petitioner then places on deposit with the City of sum equal to 10% of the engineer's estimated cost of the petitioner's portion of the public improvements. Also, the petitioner must execute a contract with the city, in the form prescribed by the Common Council, which sets forth rights and responsibilities for determination of design, specifications and installation of the proposed improvements.
 - b. Special assessments approved against such lands shall then be deferred as to the remaining cost.
 - c. Deferred assessments shall be without interest during the deferral period.

- e. This section shall not apply to development of vacant land for one- and two-family residential structures until June 1, 1998, except for public improvement projects already approved prior to the effective date of this ordinance.
- SECTION 20.04 STREET CONSTRUCTION.
- (1) Right of Way. No Street shall be improved unless a minimum 66-foot right of way has been established on any street platted after the enactment of this ordinance. Street rights of way existing prior the enactment of this ordinance may be approved with less than 66-foot right of way.
- (2) Grading and Gravel.
- a. When requested, the City will grade and gravel streets and in units of one block or more.
 - b. Assessments shall be levied for 50% of the cost incurred by the City in the construction of a standard residential street to a maximum width of 36 feet face to face of curb. If a street less than 36 feet wide is constructed, the actual construction cost shall be used in determining the assessment. If a street greater than 36 feet wide is constructed, the City shall assume the additional cost for the extra width. Street grades shall be established by the city engineer prior to any improvement with 10% being the maximum slope for streets and 15% the maximum slope for driveways.
 - c. Assessable items include cleaning and grubbing, preservation of trees and monuments, removal, excavation and disposal, stabilization of base materials, fill material required, base course, required restoration and all items necessary to complete the work including related engineering, legal and administrative costs.

- b. Property owners wishing to install driveways or sidewalks in areas not involved in a public improvement project or planned for such public improvement project may file a request for such installation with the City Clerk. All construction completed by this method shall be accomplished in accordance with approved City standards after grades and alignments have been set by the City Engineer.

SECTION 20.05 UTILITY IMPROVEMENT.

(1) Sanitary Sewers or Waste Water Lines.

- a. Extensions of sanitary sewer shall be in units of one block or more.
- b. Assessments shall be levied for 100% of the cost incurred by the City for the installation of an 8-inch sanitary sewer. If a sewer larger than 8 inches is installed, the City shall assume the additional cost.
- c. The cost of construction of a sewage pumping station and force main shall be borne by the developer or by the assessment district which it serves. In cases where pumping station with additional capacity is installed to provide service for future developable areas, the City will defer that percentage of the cost of the pumping station designed for future service areas. At the time additional areas are developed and are provided service by the pumping station, the developer shall deposit with the City 50% of his share of the cost based on acreage, with the unpaid balance subject to the same conditions that are determined by the City Council under the rules which apply to subdivision development.
- d. Assessable items shall include the sewer main, manholes, trenching, back fill, compaction, restoration and all other items necessary to complete construction including relating engineering, legal and administrative costs.

(2) Water Mains.

- b. Assessments shall be levied for 50% of the cost incurred by the City for the installation of a 6-inch diameter water main. If a water main larger than 6-inches is installed, the City shall assume the additional cost. If a water main less than 6 inches in

diameter is installed, the actual cost shall be used to determine the assessment.

- c. Assessable items shall include water mains, valves, fittings, trenching, back fill, compaction, restoration work and all other items necessary to complete the work including related engineering, legal and administrative costs. When valves and fittings are required on a water main larger than 6 inches, the assessable cost for such items shall be reduced to those used on 6-inch water mains, with the City assuming the difference in cost. When valves and fittings are required on a water main less than 6 inches in diameter, the actual cost shall be used.
- d. The City shall assume the cost of hydrant construction and materials.

(3) Assessment Determination.

- a. Assessment for sanitary sewer and water main extensions shall be determined by dividing the actual cost of the improvement by the platted frontage in feet abutting the improvement with the following exceptions:
 - i. Lots with Rear Frontage: Where lots front on two streets on opposite sides but do not classify as corner lots, and are not of sufficient depth to be divided into two lots both of which will meet requirements of the City Zoning Ordinance, or have a dwelling located on the property so as to present such a division, the assessable frontage shall be 100% of the first side and 0% of the second side. If local zoning Ordinances permit division of the lot into two lots, the assessment shall be 100% of both sides.
 - ii. Corner Lots: If improvements are installed on the short side of the lot first, the owner shall pay 100% of the frontage on the short side. If improvements are installed on the long side of the lot first, the owner shall pay for that frontage on the short side plus the frontage on the long side exceeding 80 feet. The total assessment shall not exceed the length of the short side plus the length of the long side in excess of 80 feet whether both sides are improved simultaneously or under separate projects. If assessment in this manner shall be deemed by the City Council to be unreasonable or unjust under the circumstances of the case, special assessments shall be levied in a manner that the City Council determines to be reasonable and just.
 - iii. Irregular Shaped Lots: Lots which have frontage of 20% or less than the average width of the lot shall be measured at the building set back line parallel to the street and on curved streets, the cord distance of the building set back line in order to determine assessable frontage. If lots exist with

little or no frontage abutting the improvement, but direct benefits are realized from such improvement, the lot shall be assessed for the minimum lot width as required by local zoning ordinance for that particular land use.

(4) Sewer or Waster Water and Water Laterals.

- a. Sewer and water lateral shall be extended to the property line in platted areas and all improved properties:
 - i. When new sewer or water extensions are completed.
 - ii. Before curb and gutter is installed in the street.
 - iii. Before any street is paved or reconstructed.
 - iv. When laterals shall be extended for each lot or building to be served except that in the case of two or more dwelling units on one lot, the number of laterals shall be in accordance with the estate building code.
 - v. On newly developed areas with no structure, the laterals shall be extended to the center of the lot and terminate at the property line.
- b. Laterals shall not be required on the following unimproved property:
 - i. Vacant lots or portions of lots which are too small for a building lot under the City building code and zoning ordinance or where a present dwelling is located on a portion of two or more lots in such a way as to preclude the possibility of another dwelling being placed thereon.
 - ii. Lots located in Industrial districts.
 - iii. Lots used primarily for recreational, educational, or religious functions.
 - iv. Properties which, in the judgement of the City Council, will not likely develop in the foreseeable future or where the pattern for the development cannot be determined.
- c. Assessments shall be levied for 100% of the costs occurred by the City for installation or replacement of a sanitary sewer lateral and for original installation only of a copper water lateral.
- d. Assessable items from sanitary sewer laterals include sewer pipe, fittings, trenching, back fill, compaction, restoration work and any other items required to complete the work including related engineering, legal and administrative costs.
- e. Assessable items for water laterals shall include copper tubing, corporation stops, curb stops, trenching, back fill, compaction, restoration and any other items required to complete the work including related engineering, legal and administrative costs.
- f. Water laterals to and through the curb stop will be maintained and kept in repair and, when worn out, replaced at the expense of the utility. The property

owner shall maintain the water lateral from the curb stop to the point of use.

- (5) Assessment Determination. Assessments shall be levied on a per unit basis with a total construction and material cost being divided by the number of laterals installed under any one construction contract or improvement. The City shall connect existing laterals to new sewer and water mains during replacement of private lines and inadequate mains without assessing the same to adjacent property.

SECTION 20.06 NON-ASSESSED IMPROVEMENTS.

(1) Streets.

- a. The City shall approve the paving of streets as requested provided that all underground improvements and curb and gutter have been installed and the improvement is installed in units of one block or more.

- b. The City Clerk shall establish and maintain a file of acceptable varieties.
- c. The City shall bear the entire cost of removal of trees within the street right of way under the following conditions:
 - i. It is deemed necessary to remove the tree for utility repair, maintenance, or preventative measures; or

- (2) The City shall accept payment of special assessment in one lump sum within 30 days after notice of enactment of the final resolution has been mailed to affected property owners.

- (3) The Common Council may provide for payment of any special assessment in annual installments with interest at bond issue interest or other current City interest rates plus 1% per annum on the unpaid balance. The following schedule of payment of principal and interest shall apply to all special assessments:
